PREFACE.

The Registers of Halesowen from 1559 to 1812 are contained in sixteen volumes, of which the first two are printed herein, Volume I covering the period 1559—1619, on pages 1-150, and Volume II 1620—1643, on pages 151-237.

In many places the writing is very faint and illegible, and much time and attention has been expended on the doubtful entries. It is hardly likely more will be recovered than is now printed.

The work of transcription was commenced when Rev. J. C. Hill was Rector, and he also kindly gave permission for it to be printed, but he left the parish before the work was completed, but the present Rector has consented to its publication.

The list of Incumbents has been made by the Rev. W. Davis-Winstone, who has devoted considerable time to its compilation.

The transcription of the Register, as well as making the Index, has been the work of Miss E. Hobday.
